

Actualités en Médecine des voyages

- **Actualités épidémiologiques** : mortalité, morbidité, maladies au retour de voyages
- **Focus sur « maladies émergentes »** ... associées à un risque accru d'importation en Europe: dengue, chikungunya, MERS-CoV, MDR-TB, ...

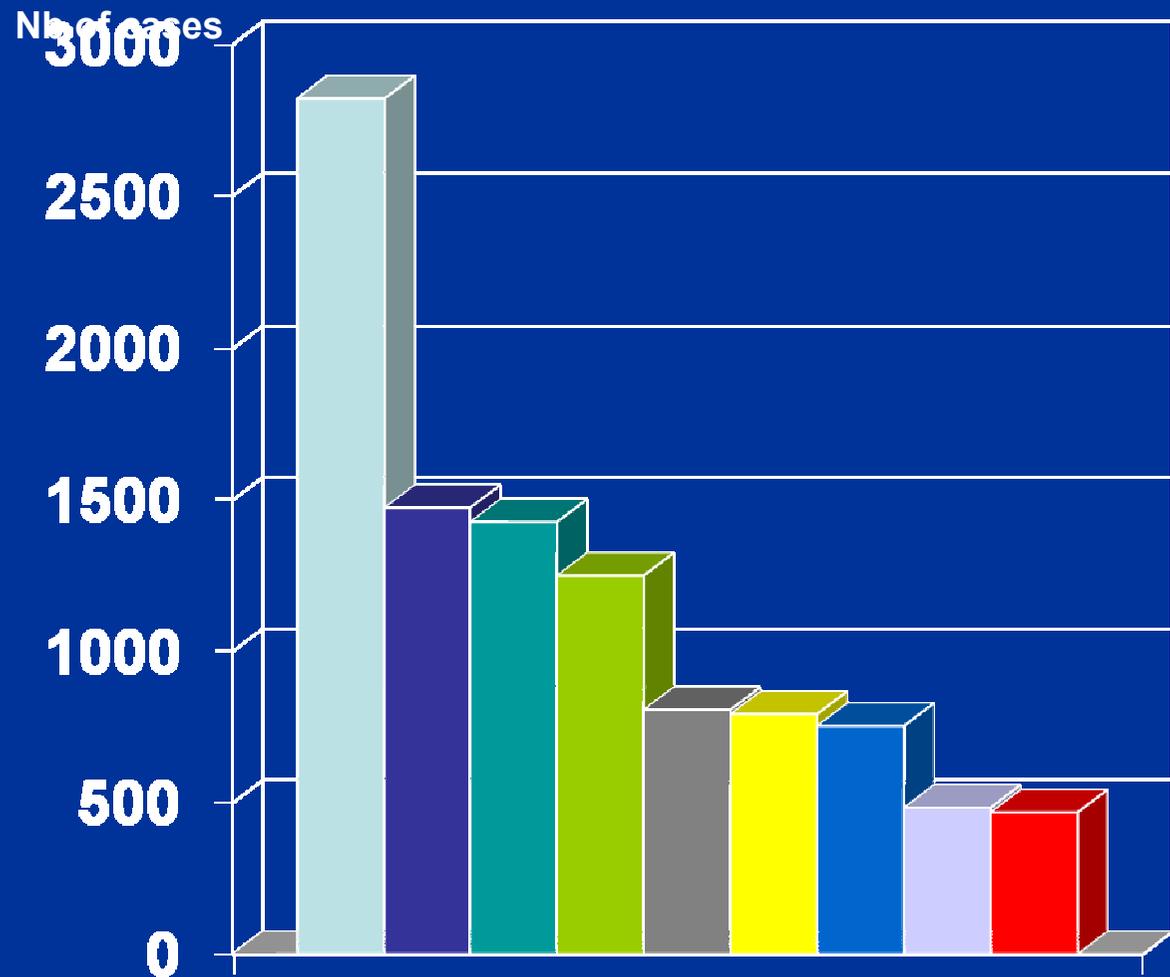

Eric Caumes, Paris

**JNI, Nancy,
Juin 2015**

Potential links of Interests

- In the past 3years, I (or my department) have received honoraria from **BMS, Baxter, Galen** and **Codexial** for lectures on STDs and participation in advisory boards (TBE vaccine, KS, scabies).
- I am the Editor in Chief of the **Journal of Travel Medicine** (IF = 1.51) (submission wellcome)

Illnesses in 42.173 returned Travelers (55% tourism, Asia 32%) – 2007-11

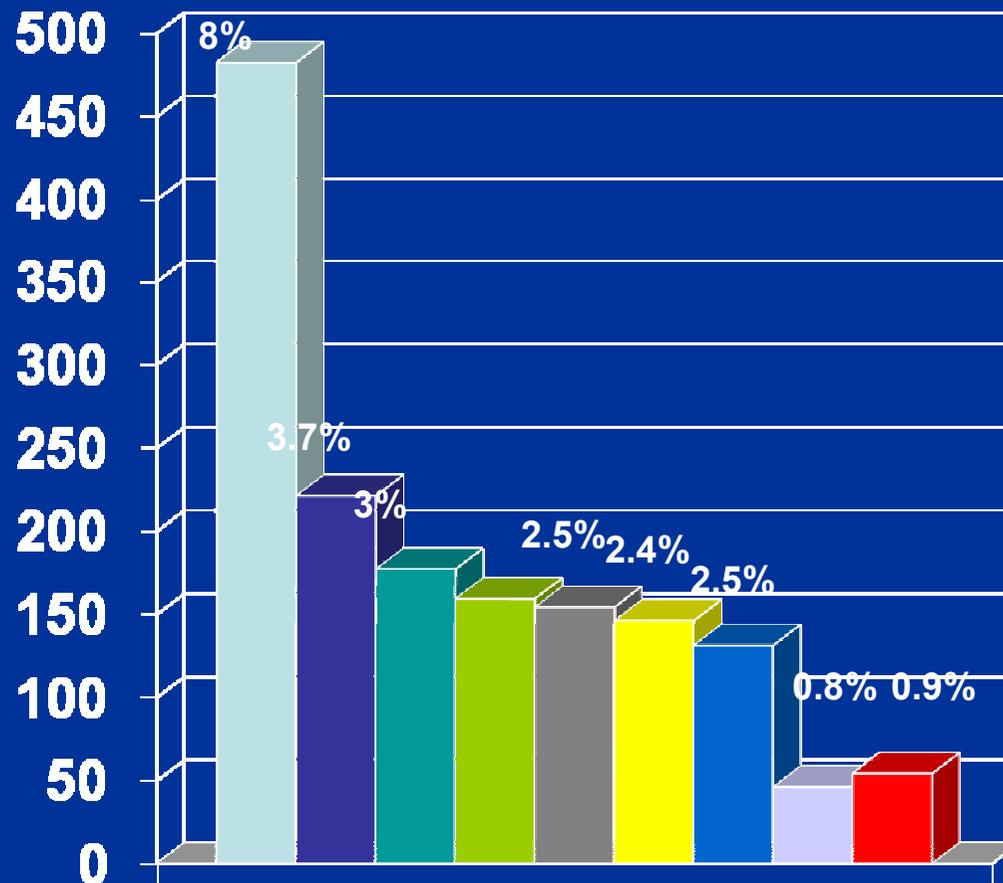

GeoSentinel

- Malaria (6.7%)
- Dengue (3.5%)
- Gardia (3.4%)
- Rabies PEP (3%)
- Hookworm CLM (1.9%)
- Schistosomiasis (1.9%)
- Campylobacter (1.8%)
- Strongyloides (1.1%)
- Enteric fever (1.1%)

Leder K et GeoSentinel. *Ann Int Med* 2013; 158: 456-468

Illnesses in 5.965 returning European Trav (48% tourism, Africa 49%) - 2011

Nb of cases

EuroTravNet

- Malaria (8%)
- Gardia (3,7%)
- Active TB (i77;3%); R-TB 8)
- Campylobacter (2,7%)
- Cutaneous larva migrans (2,5%)
- Dengue (2,4%)
- Schistosomiasis (2,2%)
- Leishmaniasis (0,8%)
- Vaccine Preventable disease (0,9%)

Eastern and Western Europe	7.7 (6.3-9.4)
Southern Europe and Eastern Mediterranean	92.3 (75.4-110.1)
Asia and Oceania	65.0 (41.5-87.9)
Americas	7.6 (4.7-11.5)
Africa	97.9 (53.1-145.5)

50.710 Fin travelers, 2010-2012 – SOS. Incidence Illness and Injuries p% 100.000 Trav days (95%/Ci)

Injuries			Acute Gastroenteritis		
Turkey	29.7	(22-37)	Egypt	184	(110-290)
Thailand	23.7	(14-36)	Turkey	67.9	(52-85)
Greece	22.5	(16-29)	Thailand	59	(37-90)
Egypt	15.6	(9-25)	Canary	21.4	(13-32)
Canary	14.6	(8-22)	Greece	11.9	(8-15)

Injury deaths of American citizens

- Road traffic accidents pose a higher risk of death to travellers than violent crime everywhere with the exception of Philippines (21/1.000.000)
- High motorcycle related death rates in Thailand (56 % road death) and Vietnam
- Thailand ranks high in rates of both road traffic accidents (1st : 16/1.000.000) and intentionally caused death (4th : 0.5/1.000.000).

Injury prevention a neglected component of pre-travel consultation

- **Exemples of pre-travel Cs advice as :**
 - driver
 - passenger
 - pedestrian
- **Other safety measures (keep charged cell phone,.....)**
- **Ressources for more infos : association for self international Road Travel (<http://www.asirt.org>)**

**What's
the risk?**

**Kao San
Bangkok**

Dengue, Brazil World cup and Olympics

Distribution of confirmed cases of MERS-CoV by reporting country and place of probable infection, March 2012 - 28 May 2014 (n=682)

Outside middle east:
19/682 = 0.28%

MERS-CoV cases by reporting country

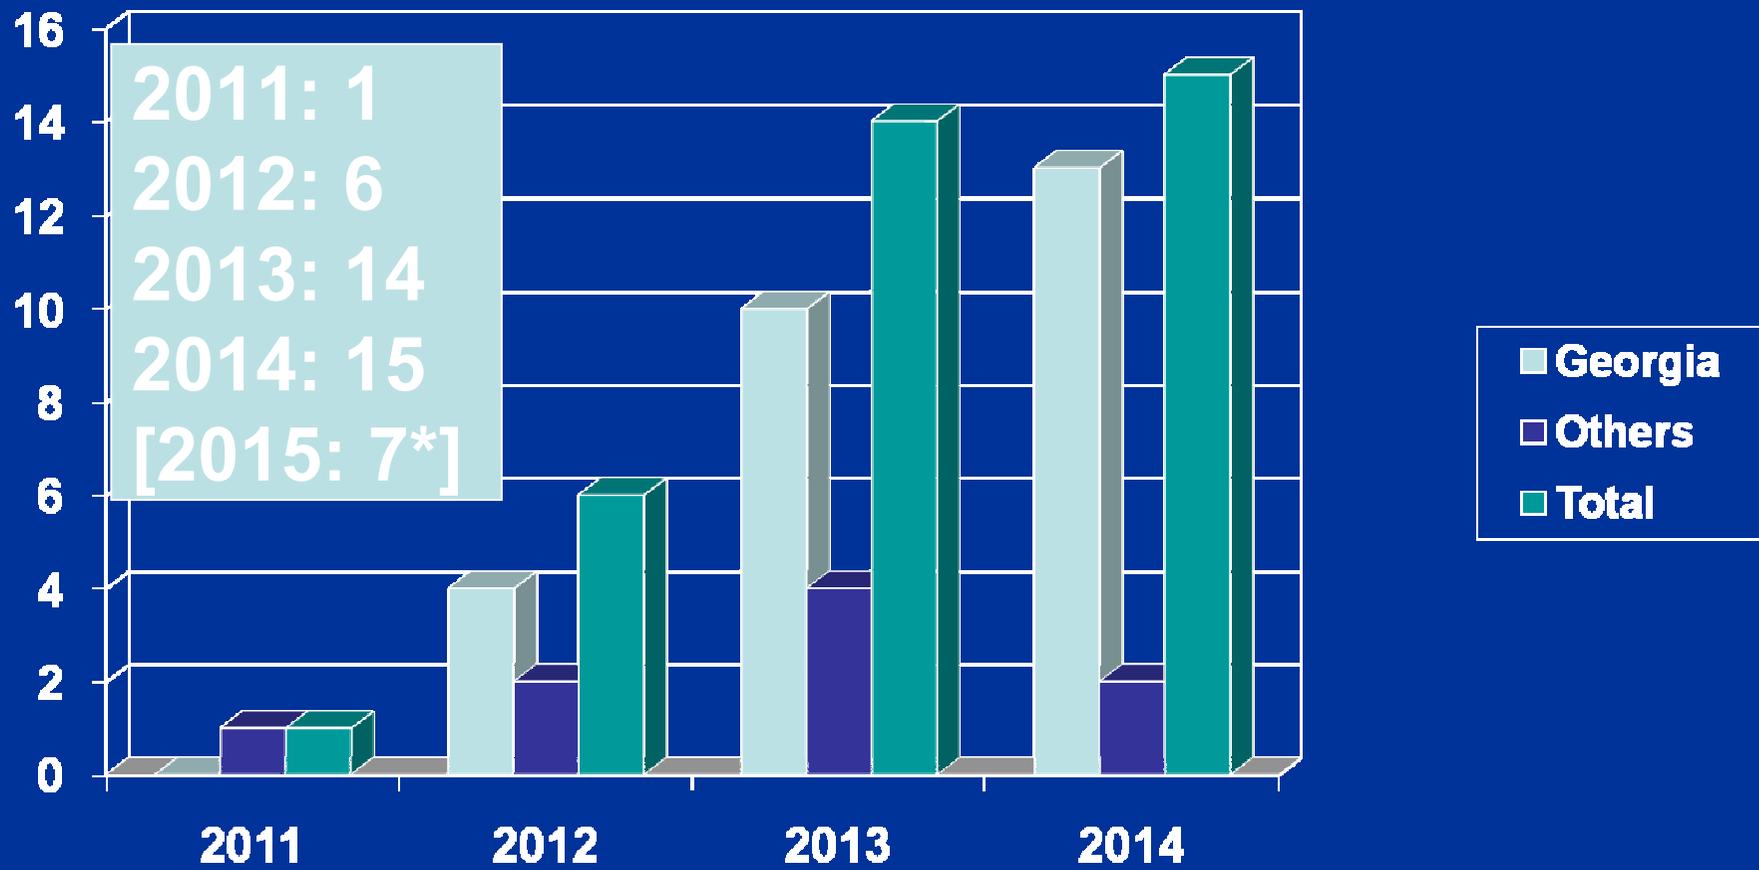

Type	Number of cases	Place of exposure
• Imported	• 1	— Jordan
• Local	○ 10	— Qatar
	○ 100	— Saudi Arabia
		— United Arab Emirates

4/2012 – 30/5/2014, 689 confirmed cases of MERS-CoV reported WW (incl 211 deaths): 19 outside Middle East

- **Europe:** UK: 4 cases/3 deaths - Germany: 2 cases/1 death - France: 2 cases/1 death - Italy: 1 case/0 death - Greece: 1 case/0 death - Netherlands: 2 cases/0 death
- **Africa:** Tunisia: 3 cases/1 death
- **Asia:** Malaysia: 1 case/1 death - Philippines: 1 case/0 death –
- **Americas:** USA: 2 cases/0 death

**Death Rate:
7/19 (35%)**

MDR/XDR TB, 2011-2014, PS hosp (n=36, including Eastern Europe 32/36 - Georgia 27/36)

MDR/XDR TB at PS hosp: 36 imported & 2 autochthonous cases

- **Pt 1:** Rheumatology, INH/RIF for TST 6/2012; adalidumab (2008-2011 – 10/2012-3/2014). 1st TB sign : March 2014

Index Pt : Georgian, Nov 2013 – Jan 2014.

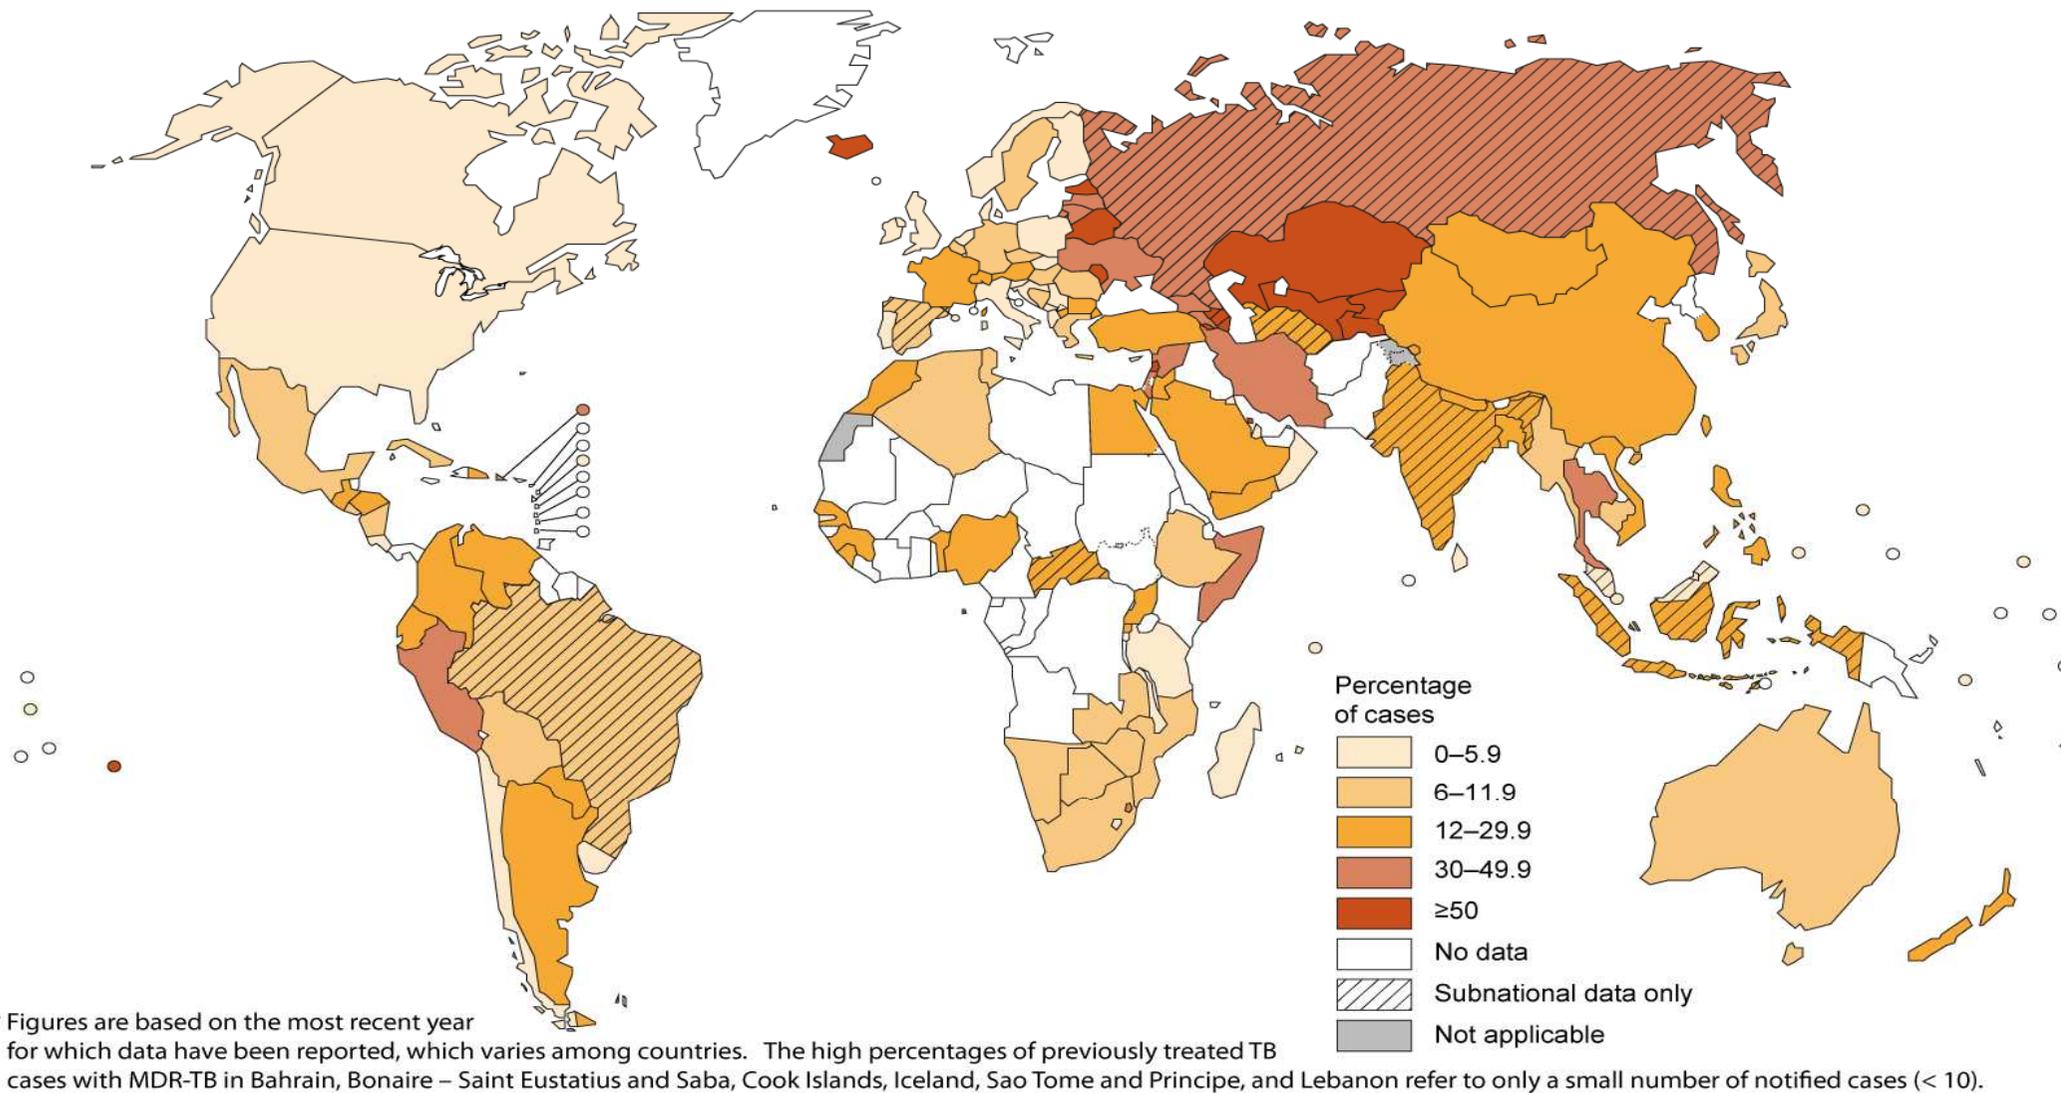

Encounter within the hosp. or in the hosp. area

- **Pt 2:** HIV +; CD4: 650/mm³; VL < 20/ml; shared cigarettes with the index Pt at the entrance of our building

Two main risk factors for MDR - TB

- History of TB treatment
- Country of birth

Percentage of previously treated TB cases with multidrug-resistant tuberculosis*

The boundaries and names shown and the designations used on this map do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted and dashed lines on maps represent approximate border lines for which there may not yet be full agreement.
